

Hello

I'm Afaf

I am a Web developer

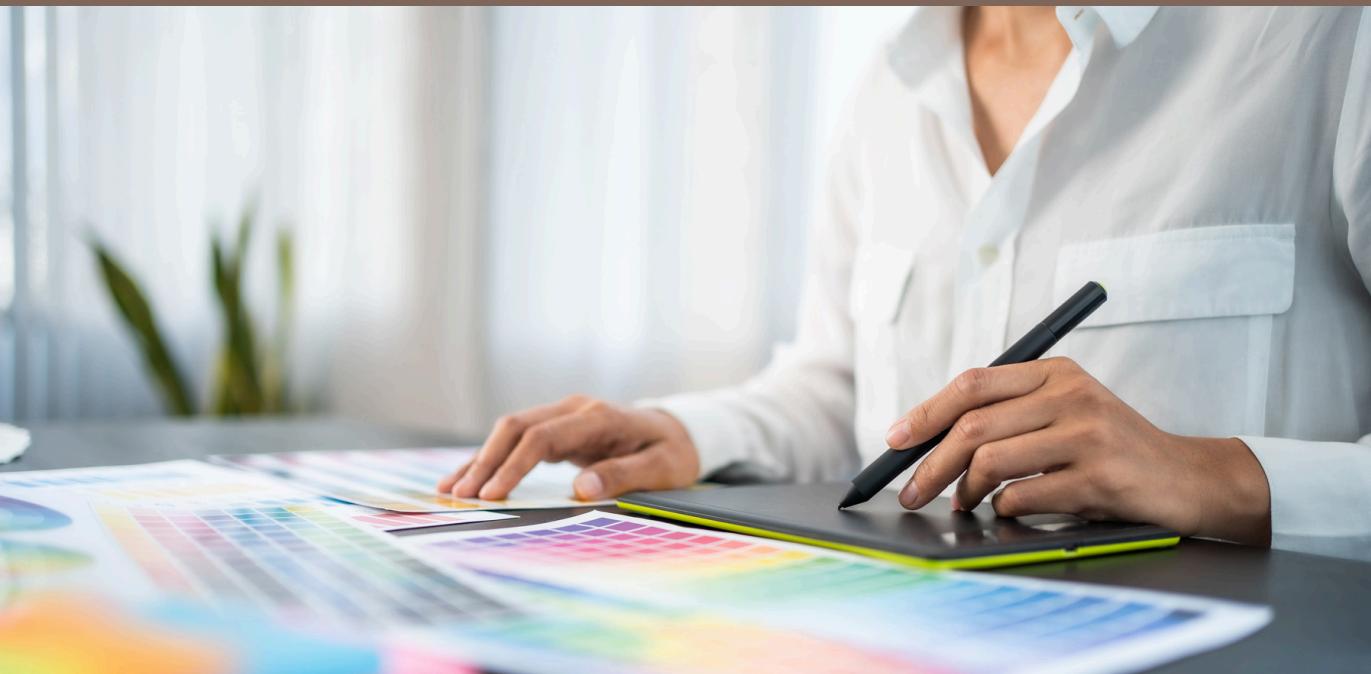

Welcome to my **Portofolio**

I am a motivated computer science student eager to delve into the world of technology and software development. While I am at the beginning of my journey, I am enthusiastic about learning programming languages and exploring various aspects of computer science.

I am committed to acquiring new skills and knowledge, and I am excited to contribute to projects that will allow me to grow and develop as a professional in this dynamic field.

My **Education**

Kafr El-Sheikh University
